

## Year 2 Feedback Examples

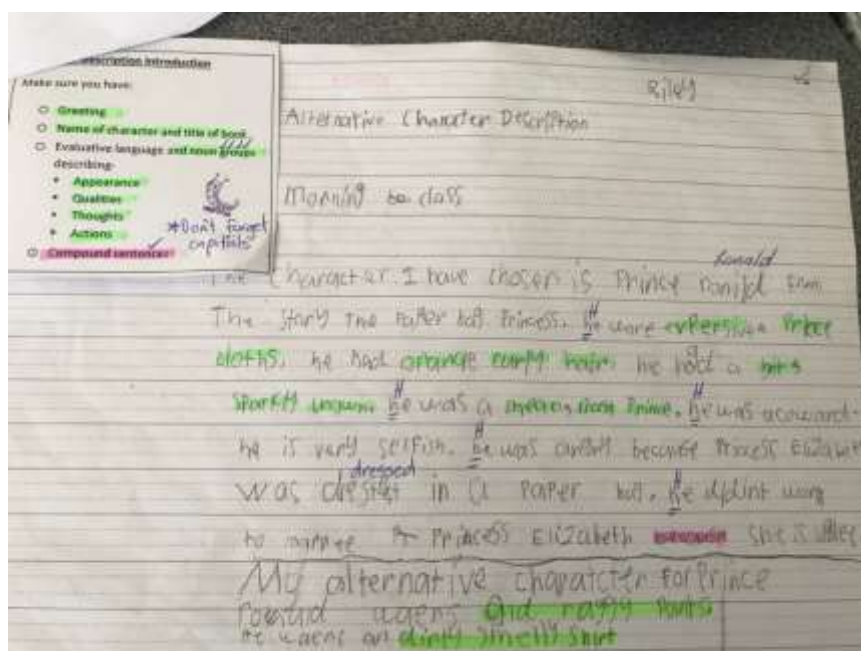

Our Year 2 teachers have been working hard to create 'Assessment Literate Learners' through regular feedback on student work. This helps students to be able to answer the 5 Questions for students:

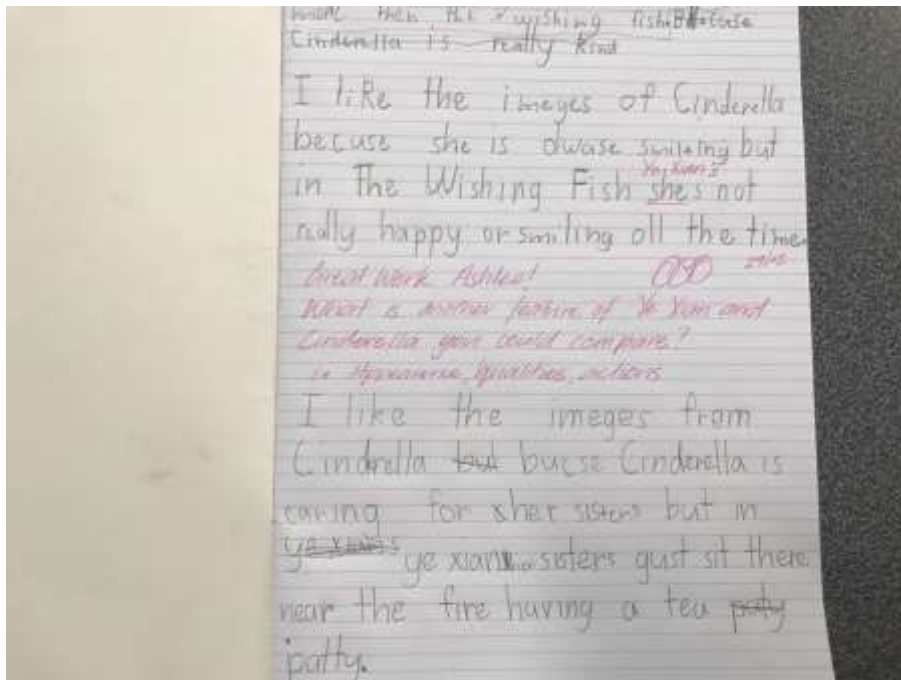

1. What are you learning?
2. How are you going?
3. How do you know?
4. How can you improve?
5. Where can you go for help?

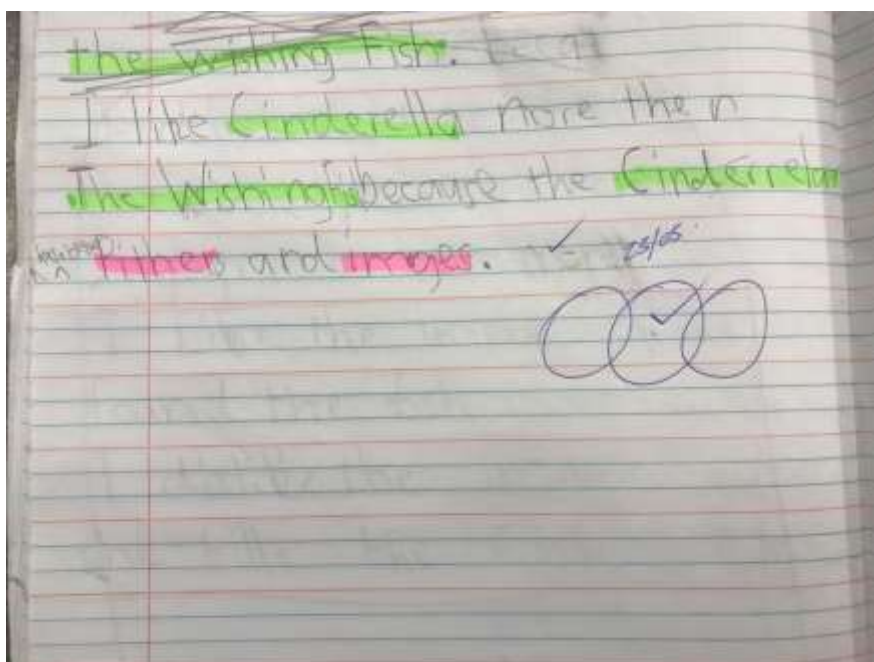

Green = successful work

Pink = some evidence (working towards success)

Written Feedback

Highlighting evidence of success criteria and feedback where the students sit on monitoring circles (left circle represents 'working towards', middle circle represents 'success', right circle represents 'exceeding expectations').

You may like to ask your child: How are they going? How can they improve?
