

Year 1 News – Week 8

In English the Year 1 students have been learning about poetry – reading and analysing poems. Their assessment will be to read the poem ‘Daddy’s Diet’ (which has been sent home for practice) and analyse another poem in class.

In Maths we are focussing on identifying and creating 3D shapes.

In Science we have been learning how different materials are used for a certain purpose. We have created a boat out of a material (aluminium foil, clay, paper etc.) by physically changing it (folding, pressing and moulding) to be able to float and carry 2 marbles.

We had lots of fun at our disco rewards afternoon. We are all aiming to get to the next rewards day now!

Fire Education talk – The fireman gave the Year 1 students 2 tasks for homework to keep them safe if there is a fire

1. Learn your street address
2. Discuss with their family a suitable meeting point in their home/yard in case there is a fire
