

6 OUT have been very busy exploring artworks that express a personal view about a social issue. We created a mixed media sculpture that symbolised our own opinions about an environmental issue. We cleverly used a green screen and uploaded our image into a backdrop that would highlight and enhance the meaning of our sculpture. Our entire artworks were created using recyclable and biodegradable products to further convey the message of our pieces.

Here are some created by our talented class.

Ibis and Plastic

Sculpture by Alex

Last Bear standing

Sculpture by Callum

Junk World

Sculpture by Dakota

Shark Fin Soup

Sculpture by Merinda

Human Destruction

Sculpture by Emjay

Plunging with Plastic

Sculpture by Paris
