11 May 2021

Dear Parent/Guardians,

Cybersafety in Queensland state schools

Cybersafety refers to online behaviour that is safe, appropriate and responsible. To help prevent cybersafety incidents, students are taught how to use technology appropriately and responsibly and behave in ways to enhance their own safety. Cybersafety is covered in our Technology and Health curriculum in years 4,5 and 6.

The **Cybersafety and Reputation Management team** plays a key role in maintaining the integrity of the department's reputation with regards to cybersafety. The team have developed programs to help primary students understand and remember what they should and shouldn't do online. They will be visiting our school on **Wednesday 26th May** to do a presentation for our year 4,5, and 6 students.

The team will also be holding a **1 hour parent session from 3:30 to 4:30pm in TCBC conference room** on the same day. We welcome you to attend this session as this is a great opportunity to have all your cybersafety and online questions answered by the Departments specialised team, as well as find out more about the trending online platforms your children are using.

If you would like to attend the parent session please RSVP on the slip below and have your student return it to the office by Thursday the 20th of May.

Helen McCullough
Principal
The Willows State School

Patricia Winter
Deputy Principal
The Willows State School

My student _____(student name) is in _____(class).

I would like to RSVP my attendance at the Cybersafety Parent session being held on Wednesday the 26th of May from 3:30 to 4:30pm in TCBC Conference Room.
